LTATV Accessories for SOF Operators

Current accessories
available for the
Kawasaki TERYX™ 750

Item	Spare Tire Carrier	GPS Accessory Crossbar	Storage Shelf Kit	Front Bumper	Exhaust Shield	Fuel Can Mount	Skid Plate
Part No.*	UTTC	UTGPS	UTSMK	UTFBK	UTRES	UTGCBM	UTSP
Description	Carry two spare tires either on the side or the rear of your LTATV. Completely bolt-on and modular design. Can be removed or installed onto the carrier by a single individual.	Crossbar provides easy mounting of accessories such as GPS and radios while also operating as an additional grab bar for safety.	Made of durable aluminum, powder coated and rubber mounted. Designed for easy tie-down use and storage underneath.	Surround and protect the winch and winch mount with this bumper system. Dual upper tubes add strength while additional stay bars secure to prevent failure under heavy load or compression. Features two tie down anchor points.	Exhaust shield reduces noise and heat signature of your LTATV for quiet operation and mission success while also protecting your exhaust.	Secure fuel cans from moving or bouncing with this fuel can security bar. Easily removable with quick and convenient access to fuel cans with a simple pull-pin to remove the bar.	Complete underside protection with multiple 3/16" aluminum plates that combine for unmatched and seamless rugged protection. Small removable panel provides quick and easy access for oil filter changes.
